

A SEMI-MONTHLY BULLETIN OF THE OFFICE OF ENVIRONMENTAL QUALITY CONTROL

NOVEMBER 8, 2006

Waimanalo to Receive 120 more Homes

The Dept. of Hawaiian Home Lands has submitted a draft EA for the development of 120 lots for single family residences on two non-contiguous parcels in Waimanalo. Each lot will be a minimum of 5000 square feet. The parcels are adjacent to Kumuhau and Kakaina Streets. Additionally, there will be installation and/or upgrades of roadways, drainage systems, water distribution lines, connections to the wastewater treatment plant and utilities. See page 5 for details.

OEQC Document Library online and ready for business

If you haven't already heard we have eliminated the need to enter a user name and password at our library site. It is now an internet site, accessible to all. Here is the new address: <http://oeqc.doh.hawaii.gov> or you can enter through the OEQC Environmental Notice website at <http://www.state.hi.us/health/oeqc/notice/index.html>. Use the blue navigation bar on the left and enter the Environmental Notice page and you will see it next to the star burst. If you want a shorter link go to oeqc.net its just another doorway to our homepage.

Documents currently submitted in pdf format to OEQC will be placed on the website during the publication month. If a document is not submitted in pdf format the final will be sent out for scanning into pdf at the end of the year. It will then be made available on the document library website around the middle of the following year. You can access the library at any time when looking for that elusive document or just looking for samples.

We have been receiving calls from some of you that you cannot access the website. You should check with your IT personnel to see if your security doesn't allow access because of certificate restrictions. Others have been able to access it by putting an "S" after http (<https://>) which allows them to enter the site previously barred due to security restrictions. If you are unsuccessful and still need help, please call OEQC or email a comment to oeqc@doh.hawaii.gov.

Linda Lingle,
Governor
Genevieve Salmonson,
Director

Your guide to the Environmental Review Process

Draft Environmental Assessment

A project or action that may affect the environment cannot be implemented until an Environmental Assessment (EA) is prepared in accordance with Chapter 343, Hawai'i Revised Statutes (HRS). If the lead State or county agency (the *proposing agency* for agency actions, or the *approving agency* for applicant actions) anticipates that the project will have no significant environmental impact, then affected agencies, individuals, and organizations must be consulted and a Draft EA (DEA) is written and public notice is published in this periodic bulletin (see, section 343-3, HRS) known as the *Environmental Notice*. The public has 30 days to comment on the Draft EA from the date of the first notice.

Final Environmental Assessment and Finding of No Significant Impact

After the lead agency reviews the public comments, if it determines that the project will have no significant effect on the environment, and then it will prepare a Final EA (FEA) and issue a Finding of No Significant Impact (FONSI) formerly called a *Negative Declaration*. The Final EA must respond to all public comments. An Environmental Impact Statement will not be required and the project may now be implemented. The public has 30 days from the first notice of a FONSI in this periodic bulletin to ask a court to require the preparation of an EIS.

Final Environmental Assessment and Environmental Impact Statement Preparation Notice

When a lead agency decides that a project may have a significant environmental impact, an Environmental Impact Statement (EIS) must be prepared prior to implementing the project. Like the DEA (see *above*), affected agencies, individuals and organizations must be consulted prior to preparation of the final EA (FEA) and issuance of a determination called an EIS preparation notice (EISPN). (The EA is called *final*, to distinguish it from the draft, *above*). After the FEA is written by the lead agency, and notice of the FEA and EISPN is published in the this periodic bulletin, any agency, group, or individual has 30 days from the first publication of the EISPN to request to become a consulted party and to make written comments regarding the environmental effects of the proposed action. The public (including an applicant) has 60 days from the first notice of an EISPN in this periodic bulletin to ask a court to not require the preparation of an EIS.

Draft Environmental Impact Statement

After receiving the comments on the FEA and EISPN (see *above*), the lead agency or private applicant must prepare a Draft Environmental Impact Statement (DEIS) prior to project implementation. This document must completely disclose the likely impacts of a project. Direct, indirect and cumulative impacts must be discussed along with measures proposed to mitigate them. The public has 45 days from the first publication date in this periodic bulletin to comment on a DEIS. The DEIS must respond to comments received during the FEA-EISPN comment period in a *point-by-point* manner.

Final Environmental Impact Statement

After considering all public comments filed during the DEIS stage, the agency or applicant must prepare a Final EIS (FEIS). The FEIS must respond in a *point-by-point* manner to all comments from the draft stage. Requisite deeper analyses must be included in the FEIS. For applicant projects, the approving agency is authorized to accept the FEIS. For agency project the Governor or the county mayor is the accepting authority. Only after the EIS is accepted may the project be implemented.

Acceptability

If the FEIS is accepted, the law requires that notice of this be published in this periodic bulletin. The public has 60 days from the date of first notice of acceptance to ask a court to vacate the acceptance of an EIS. In the case of applicant actions, the law requires that an approving agency must make a determination on acceptance within thirty-days of receipt of the FEIS or the FEIS is deemed accepted. Also, for applicant actions, the law provides for an administrative appeal of a non-acceptance to the Environmental Council.

National Environmental Policy Act

The National Environmental Policy Act (NEPA) requires federal projects to prepare an EA or EIS. It many ways it is similar to Hawai'i's law. Some projects require both a state (and county) and federal EIS and the public comment procedure should be coordinated. Although not required by law, the OEQC publishes NEPA notices in this periodic bulletin to help keep the public informed of important federal actions.

Conservation District

Any use of land in the State Conservation District requires a Conservation District Use Application (CDUA). These applications are reviewed and approved by the Board of Land and Natural Resources (BLNR). Members of the public may intervene in the permit process. Notice of these permit applications is published in this periodic bulletin.

Special Management Area

The Special Management Area (SMA) is along the coastlines of all our islands and development in this area is generally regulated by Chapter 205A, HRS and county ordinance. A special subset of the SMA that is regulated by Chapter 343, HRS is the Shoreline Setback Area. Most development in this area requires a Special Management Permit (SMP). This periodic bulletin posts notice of these SMP applications to encourage public input.

Shoreline Certifications

State law requires that Hawai'i shorelines be surveyed and certified when necessary to clearly establish the shoreline setback (an area contained between the certified shoreline and a prescribe distance inland (usually 40 feet) from the certified shoreline). The public may participate in the process to help assure accurate regulatory boundaries. Private land owners often petition to have their shoreline certified by the State surveyor prior to construction. This periodic bulletin publishes notice from the Department of Land and Natural Resources of both shoreline certification applicants and of final certifications or rejections.

Environmental Council

The Environmental Council is a fifteen-member citizen board appointed by the Governor to advise the State on environmental concerns. The council makes the rules that govern the Environmental Impact Statement process. The agendas of their regular meetings are published on the Internet at <http://www.ehawaii.gov.org/calendar> and the public is invited to attend.

Exemption Lists

Government agencies must keep a list describing the minor activities they regularly perform that are declared exempt from the environmental review process. These lists are reviewed and approved by the Environmental Council. This periodic bulletin will publish an agency's draft exemption list for public comment prior to Council decision making, as well as notice of the Council's decision on the list.

Endangered Species

This periodic bulletin is required by Section 343-3(c), HRS, to publish notice of public comment periods or public hearings for habitat conservation plans (HCP), safe harbor agreements (SHA), or incidental take licenses (ITL) under the federal Endangered Species Act, as well as availability for public inspection of a proposed HCP or SHA, or a proposed ITL (as a part of an HCP or SHA).

O'ahu Notices

NOVEMBER 8, 2006

Kaipapa'u Stream Bridge Replacement (HRS 343 DEA)

District: Ko'olaupua
TMK: Adjacent to Plats (1) 5-4-011 & 018
Proposing Agency: Dept. of Transportation, Highways Division
601 Kamokila Blvd. Rm. 688, Kapolei, HI 96707
Contact: Duane Taniguchi (692-7582)

Determination Agency: Same as above.
Consultant: R.M. Towill Corporation
420 Waikamilo Rd., Ste. 411, Honolulu, HI 96817
Contact Chester Koga (842-1133)

Public Comment Deadline: December 8, 2006
Status: Draft environmental assessment (DEA) notice pending 30-day public comment. Address comments to the proposing agency with copies to the consultant and OEQC.

Permits Required: Dept of the Army Nationwide Permit; Water Quality Certification; SCAP; CZM, SMA, NPDES NOI Form C, F & G

State Department of Transportation – Highways Division (SDOT-H) proposes to replace the Kaipapa'u Stream Bridge, located on Kamehameha Highway, State Route 83, in Hau'ula, O'ahu. This project is one in a series of bridge replacements being implemented by the SDOT-H and the Federal Highway Administration to ensure that the bridge meets State and Federal bridge and roadway standards. The existing 74-year-old bridge has been identified as being structurally deficient and presently does not meet design standards for highway speed, loading, sight distances, guard railings, and pedestrian accessibility.

The structure will be a pre-stressed concrete girder bridge 110 feet long by 57 feet wide. The proposed design includes two 12-foot travel lanes, two 8-foot-6-inch shoulders, two 5-foot pedestrian walkways/

bikeways, guardrails, and drainage features. The banks of the stream beneath the bridge abutments will be stabilized with concrete to maintain the integrity of the embankment. To provide for a wider bridge, acquisition of additional property will be required.

Anticipated impacts include traffic disruption during construction with potential temporary lane closures, one dwelling being demolished, and three temporary resident relocations. Water quality of Kaipapa'u Stream may also be affected by the proposed project.

Short-term construction-related impacts will be mitigated by restricting the hours of construction to non-peak traffic periods, and by use of traffic control measures including barricades, cones, signage and lighting. The Honolulu Police Department will be notified prior to periods of heavy equipment activity or in the event of temporary lane closures. Water pollution prevention measures to minimize pollutants from entering the stream will be employed in all phases of the project.

Property owners whose property will be acquired and residents who will be temporarily displaced by the proposed project will be eligible for compensation and relocation assistance from the SDOT-H.

Construction is expected to begin in 2008 and last for approximately 16 months at a cost of \$11.55 million.

Waimanalo Residence Lots (HRS 343 DEA)

District: Ko'olaupoko
TMK: (1) 4-1-08:10,11, 81, 91 & 92 & 4-1-23:65
Proposing Agency: Dept. of Hawaiian Home Lands
P.O. Box 1879, Honolulu, HI 96805
Contact: Darrell Ing (587-6451)

Determination Agency: Same as above.
Consultant: PBR Hawai'i
1001 Bishop St., Ste. 650, Honolulu, HI 96813
Contact: Vincent Shigekuni (521-5631)

Public Comment Deadline: December 8, 2006
Status: Draft environmental assessment (DEA) notice pending 30-day public comment. Address comments to the proposing agency with copies to the consultant and OEQC.

Permits Required: Building, Grading, Sewer, NPDES

The lots will be awarded to the Department of Hawaiian Home Lands' (DHHL) beneficiaries in partial fulfillment for DHHL's program goal of providing homestead awards to native Hawaiians.

The site is approximately 19.52 acres on two non-contiguous parcels. Waimanalo Residence Lots will consist of 120 single-family residential lots (5,000-square-foot minimum). In support of the development, infrastructure facilities to be expanded or improved include access and circulation roadways, drainage systems, water distribution lines, connections to the wastewater treatment plant, and electrical/communication systems. The roadways and utility systems will be designed and constructed in conformance with State and County standards.

The final layout and configuration of the proposed Waimanalo Residence Lots will be refined through the planning, engineering, and design process to ensure that long-range use of the property will be consistent with surrounding land uses. Where appropriate, guidelines for sustainable building design will be considered.

Ke'ehi Lagoon Memorial Master Plan Update (HRS 343 FEA-FONSI)

District: Honolulu
TMK: (1) 1-1-003:004
Applicant: Ke'ehi Memorial Organization
2685 N Nimitz Hwy, Honolulu, HI 96819
Contact: Cappy Fasi (947-1111)
Approving Agency: DLNR-OCCL
P.O. Box 621, Honolulu, HI 96809
Contact: Samuel Lemmo (587-0377)
Consultant: Cappy Fasi
2056 Lanihuli Dr., Honolulu, HI 96822
Contact: Cappy Fasi (947-1111)
Status: Final environmental assessment (FEA) and Finding of No Significant Impact (FONSI).
Permits Required: CDUA, Building Permits

The proposed day care facility replaces the deteriorated 1,656 sq.ft. Tommy Kakesako Rehabilitation Center and will be no more than 25' high, with 8,000 sq. ft. of total floor area (a net increase of approximately 6,364 sq. ft.). Existing improvements for after-the-fact approval include a CRM retaining wall that extends 430 linear feet along the shoreline, three small picnic shelters and barbeque pits with related walkways, and a 10 ft wide concrete drainage channel that slopes toward adjacent Moanalua Stream. There is no natural beach; all land was created by fill. A Coastal Engineering Evaluation prepared by Oceanit (May 2005), states that the seawall and drainage channel have a positive effect on the shoreline environment by reducing landfill erosion into the beach and Ke'ehi Lagoon. The DLNR staff report concurred that the seawall and drainage channel had no adverse impact on shoreline process. BLNR allowed the structures to remain subject to formal after-the-fact approval.

Ke'ehi Memorial Organization (KMO) proposes to develop a new facility and renovate or retain existing facilities at Ke'ehi Lagoon Memorial (an 11.087-acre site located on the south shore of O'ahu, fronting Ke'ehi Lagoon, between the Ke'ehi Lagoon Beach Park and Moanalua Stream), in accordance with a July 2005 Master Plan Update. Because the site is physically isolated, the outdoor recreation activities and indoor events do not adversely affect neighboring land uses. This Environmental Assessment addresses the development of a proposed inter-generational day care center, renovations to existing structures and after-the-fact approvals for existing improvements.

Public Comment
Deadline: December 8, 2006
Status: Draft environmental assessment (DEA) notice pending 30-day public comment. Address comments to the applicant with copies to the approving agency, consultant and OEQC.

Permits Required: Special Management Area Use Permit

the portion of Kilohana Drive extending from Kapili Street to Pi'ilani Highway falls under State control. The County of Maui is the fee-simple owner of the property underlying the project site.

The proposed ambulance station will be a single-story building approximately 50 feet by 30 feet with approximately 1,500 square feet of floor area. The building will house an ambulance for emergency response service (911), sleeping and living quarters for two (2) emergency response personnel, an office area, small kitchen and medical supply storage area. The emergency ambulance station will be operational 24 hours a day, seven days a week. Related improvements include site grading, installation of underground utilities, four (4) parking stalls and a paved driveway off of Kilohana Drive and drainage improvements. In addition, to facilitate accessibility for disabled individuals, the emergency ambulance station will be designed in accordance with the requirements of the Americans with Disabilities Act.

WCA will convey the improvements to the County of Maui upon completion. The County in turn will lease the building out to an emergency service provider. Since the proposed action involves the use of County lands, an Environmental Assessment (EA) has been prepared as required by Chapter 344, Hawai'i Revised Statutes. In addition, because the project site is situated within the limits of the Special Management Area (SMA) for the island of Maui, an application for an SMA Use Permit has been prepared for review and approval by the Maui Planning Commission.

The Wailea Community Association (WCA), a 501 (c) (4) not-for-profit corporation, proposes to construct a new emergency ambulance station and related improvements at the Wailea Fire Station property. The Wailea Fire Station property (subject property) is 3.152 acres and is identified by TMK 3-9-038:26. The subject property is zoned P-1, Public/Quasi-Public. The property is located to the north of Kilohana Drive and Kapili Drive intersection in Wailea, Hawai'i. The approximately one (1) acre-project site is situated in the western portion of the property. The project site is currently vacant and is occupied by scrub vegetation. Access to the project site is provided by Kilohana Drive, a two-lane connector road that falls under the joint jurisdiction of the State of Hawai'i and A & B Wailea LLC. Generally,

Ahihi-Kina'u Natural Area Reserve Boundary Buoy Installation (HRS 343 DEA)

District: Makena
TMK: (2) 2-1-004-073
Proposing Agency: DLNR, Division of Forestry & Wildlife
1151 Punchbowl, Rm. 325, Honolulu, HI 96813
Contact: Christen Mitchell (587-0051)

Determination Agency: Same as above.
Public Comment Deadline: December 8, 2006
Status: Draft environmental assessment (DEA) notice pending 30-day public comment. Address comments to the proposing agency and OEQC.

Permits Required: BLNR Approval, US Coast Guard Private Aids to Navigation, US Army Corps of Engineers

The Hawai'i Department of Land and Natural Resources, Division of Forestry and Wildlife, Natural Area Reserve System proposes the installation of boundary buoys along the marine boundary of 'Ahihi-Kina'u Natural Area Reserve (NAR), Maui. Use of motorized vessels within a Natural Area Reserve is prohibited under current State administrative rules, and the establishment of boundary buoys will provide visual cues for boaters to prevent unintentional entry. Potential impacts of installing boundary buoys in the marine waters of 'Ahihi-Kina'u NAR include possible disturbance and damage to colonized bottom, alteration of the view shed, and the addition of a new light source in the immediate area. Impact mitigation measures include using information from seabed surveys to select anchoring sites.

Map of Project Site and General Buoy Anchor Locations

NOVEMBER 8, 2006

Sale of County of Hawai'i Land Near Lako Street (HRS 343 FEA-FONSI)

District: North Kona
TMK: (3) 7-6-13:17
Proposing Agency: Hawai'i County, Department of Finance
 25 Aupuni St., Rm 118, Hilo, HI 96720
 Contact: Nancy Crawford (961-8234)

Determination Agency: Same as above.
Consultant: Geometrician Associates
 PO Box 396, Hilo HI 96721
 Contact: Ron Terry (969-7090)

Status: Final environmental assessment (FEA) and Finding of No Significant Impact (FONSI).

Permits Required: Hawai'i County: Council Approval

eral, the project and environmental characteristics of any particular development that might ensue the proposed sale are difficult to predict. Although the existing Agricultural zoning would accommodate a farm and/or one residence, the site is not well-suited for a farm or farm dwelling. It is expected that a new owner would apply for a change of zone for an urban use. Activities that seem reasonable to expect, given adjacent uses, include commercial and residential. A change of zone would include oversight by the Hawai'i County Planning Department, Planning Commission and County Council. At that time, any development would be subject to rezoning conditions to address specific environmental impacts related to the actual proposed use.

The Hawai'i County Department of Finance proposes to sell at public auction a 1.002-acre County of Hawai'i property. The property borders Kuakini Highway near its intersection with Lako Street, the Orchid Isle Auto Center, and a vacant right-of-way behind which is the Kona Vista subdivision.

The property was originally acquired in 1969 as a site for the Kailua Fire Station, which the County built in 1973 on Palani Road instead. It is now vacant and covered with alien scrub vegetation. Access to the property would be via the old Kailua-Keauhou Middle Road, which lacks pavement and was some time ago blocked off and covered with vegetation and yard waste. The property is within the State Land Use Urban District and is zoned by the County A-1a (Agriculture, minimum lot size 1-acre).

A County Council resolution authorized the Finance Department to sell the property in fee simple, provided that the new owners agree to provide additional on-site parking, water and other amenities for those using the adjacent Walua Road/Path, a popular walking and biking trail. These conditions may be altered because of reactions from neighbors, who would prefer to see the amenities located on the south side of Lako Street, close to the actual location of the trail, while still preserving the project benefits.

Three archaeological sites, segments of walls dating from the last century, are present. They are significant for information content only and may be removed. No cultural resources are present. In gen-

Status: Final environmental assessment (FEA) and Finding of No Significant Impact (FONSI).

Permits

Required: County (PWD): Grading, Grubbing and Stockpiling and Permits to Construct Within County ROW; State (DOH): National Pollutant Discharge Elimination System Permit (NPDES); (SHPD): No Adverse Effects Determination

with an apron paved for 50-feet beyond the State right-of-way. The project would utilize private lands and County of Hawai'i funds, and would be field constructed by the DPW. It is likely that most of the length of the emergency road will be replaced by the permanent road system of the Bridge Aina Le'a project, which is planned for development some time in the next decade. The area has been surveyed for significant botanical and archaeological resources and none are present. Should archaeological features or human skeletal remains be encountered during road construction or operation, work in the immediate area of the discovery will be halted and DLNR-SHPD contacted.

The Hawai'i County Department of Public Works (DPW) proposes to construct a single-lane, gravel-surfaced roadway that would provide a route from within Waikoloa Village to Queen Ka'ahumanu Highway for emergency evacuation of the village during natural disasters, or other emergency situations, particularly wild land brush fires. Waikoloa Village has more than 5,000 residents in addition to visitors, and because it is surrounded by dry grass in an area of high wind speeds, it is very vulnerable to brush fires. The August 2005 wildfire burned 25,000 acres and cut off the upper portion of Waikoloa Road. The gated one-way road would be opened *only during emergencies* as authorized by the County of Hawai'i Civil Defense Agency, and professional traffic control personnel would be utilized to safely conduct traffic along and off the road onto Queen Ka'ahumanu Highway. The gravel road would be 12 to 15 feet wide, with an easement width of 50 feet and a total length of about 2.13 miles. The intersection with Queen Ka'ahumanu Highway would involve a new access point

Status: Draft environmental assessment (DEA) notice pending 30-day public comment. Address comments to the applicant with copies to the approving agency, consultant and OEQC.

Permits Required: Subdivision & reconsolidation

of the Old Railroad Right of Way (Tax Key No.: (4) 4-4-04-003:por.), which separates the Applicants' properties, from the County of Kaua'i. The Old Railroad Right-of-Way is not used by the County of Kaua'i, and the acquisition by the Applicants of said portion will enable the Applicants to consolidate and re-subdivide their lands with the Old Railroad Right-of-Way portion acquired from the County. Part of the acquisition will include a requirement that the owners convey, to the County of Kaua'i, a 13' wide strip of land running along Hau'iki Road, which abuts the owners' properties, for road widening purposes.

If the Applicants' proposal is accepted by the County of Kaua'i, they will be able to reconfigure the consolidated and re-subdivided land area and, eventually, construct a single-family dwelling. All of the properties which are described in this Project Summary are within the State Land Use Agricultural District, and are zoned Agriculture by the County of Kaua'i.

This constitutes a proposal for the Applicants, who are owners of properties in the Kapaa homesteads area which are identified as Tax Key nos.: (4) 4-4-04-053 (containing 2,781 s.f.) and Tax Key No.: (4) 4-4-04-028:CPR No. 6, to purchase a portion

Federal Consistency Reviews

The Hawai'i Coastal Zone Management (CZM) Program has received the following federal actions to review for consistency with the CZM objectives and policies in Chapter 205A, Hawai'i Revised Statutes. This public notice is being provided in accordance with section 306(d) (14) of the National Coastal Zone Management Act of 1972, as amended. For general information about CZM federal consistency please call John Nakagawa with the Hawai'i CZM Program at 587-2878. For neighboring islands use the following toll free numbers: Lana'i & Moloka'i: 468-4644 x72878, Kaua'i: 274-3141 x72878, Maui: 984-2400 x72878 or Hawai'i: 974-4000 x72878.

For specific information or questions about an action listed below please contact the CZM staff person identified for each action. Federally mandated deadlines require that comments be received by the date specified for each CZM consistency review and can be mailed to:

Kawela Stream Bridge Replacement, Kamehameha Highway, O'ahu

Applicant: State of Hawai'i Department of Transportation, Highways Division
Agent: Earth Tech, Inc., Tanya Copeland, 356-5323
Federal Action: Federal Funding
Federal Agency: Federal Highway Administration
Location: Kamehameha Highway at Kawela Stream, Ko'olauloa, O'ahu
CZM Contact: John Nakagawa, 587-2878
Comments Due: November 22, 2006
Proposed Action:

The applicant is requesting federal funding from the Federal Highway Administration to replace the Kawela Stream Bridge on Kamehameha Highway with a new bridge that will meet current standards. The new bridge is proposed to be wider than the existing bridge to allow for shoulders in both directions of travel. A temporary bypass bridge and detour road would be constructed mauka of the existing road to accommodate traffic while the new bridge is under construction.

Special Management Area (SMA) Minor Permits

Pursuant to Hawai'i Revised Statute (HRS) 205A-30, the following is a list of SMA Minor permits that have been approved or are pending by the respective county/state agency. For more information about any of the listed permits, please contact the appropriate county/state Planning Department. City & County of Honolulu (523-4131); Hawai'i County (961-8288); Kaua'i County (241-6677); Maui County (270-7735); Kaka'ako (Honolulu) or Kalaeloa (Barbers Point) Community Development District (587-2840).

SPECIAL MANAGEMENT AREA (SMA) MINOR PERMITS		
Location (TMK)	Description (File No.)	Applicant/Agent
O'ahu: Pupukea (5-9-7-2)	Trailmarker Project Field Office (2006/SMA-41)	Bill Braden
O'ahu: Makaha (8-4-4-6)	Utility installation including 2 omni panel antennas and a generator (2006/SMA-43)	Verizon Wireless / Mike Beason
Maui: Kihei (2-1-6-104)	MECO to install poles (SM2 20060086)	Maui Electric Company, Ltd.
Maui: Ma'alae'a (3-6-1-2)	Electrical Meter Building at the Ma'alae'a Small Boat harbor (SM2 20060087)	Fukunaga & Associates
Maui: Kahului (3-7-11-2)	Install wooden electrical poles (SM2 20060088)	Maui Electric Company, Ltd.
Maui: Wailea (2-1-23-5)	Apartment alterations (SM2 20060089)	Gholkar, Satish
Maui: Kahului (3-7-2-1)	Pineapple packing facility renovations & improvements (SM2 20060090)	Maui Land & Pineapple Company, Inc.

Federal Notices

NOVEMBER 8, 2006

Major Disaster & Related Determinations in Hawai'i

Notice is hereby given that, in a letter dated October 17, 2006, the President declared a major disaster under the authority of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121-5206 (the Stafford Act), as follows:

I have determined that the damage in certain areas of the State of Hawai'i resulting from an earthquake that occurred on October 15, 2006, and related aftershocks, is of sufficient severity and magnitude to warrant a major disaster declaration under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121-5206 (the Stafford Act). Therefore, I declare that such a major disaster exists in the State of Hawai'i. In order to provide Federal assistance, you are hereby authorized to allocate from funds available for these purposes such amounts as you find necessary for Federal disaster assistance and administrative expenses.

You are authorized to provide assistance for debris removal and emergency protective measures (Categories A and B) under the Public Assistance program in the designated areas, as well as Hazard Mitigation throughout the State, and any other forms of assistance under the Stafford Act you may deem appropriate, subject to completion of Preliminary Damage Assessments (PDAs), unless you determine that the incident is of such unusual severity and magnitude that PDAs are not required to determine the need for supplemental Federal assistance pursuant to 44 CFR 206.33(d). Direct Federal assistance is authorized.

Further, you are authorized to make changes to this declaration to the extent allowable under the Stafford Act. The Federal Emergency Management Agency (FEMA) hereby gives notice that pursuant to the authority vested in the Director, Department of Homeland Security, under Executive Order 12148, as amended, Michael L. Karl of FEMA is appointed to act as the Federal Coordinating Officer for this declared disaster.

I do hereby determine the following areas of the State of Hawai'i to have been affected adversely by this declared major disaster: The counties of Hawai'i, Honolulu, Kauai, and Maui and the City of Honolulu for debris removal and emergency protective measures (Categories A and B), including direct Federal assistance, under the Public Assistance program.

For further information contact: Magda Ruiz, Recovery Division, Federal Emergency Management Agency, Washington DC 20472, (202) 646-2705. [FR Doc. E6-17985 Filed 10-25-06; 8:45 am] [FR: 10/26/2006 (Vol. 71, No 207)]

Modification of Class E Airspace; Honolulu International Airport, HI

On August 2, 2006, the FAA proposed to amend 14 CFR part 71 by modifying the Class E airspace area at Honolulu International Airport (06 FR 43680). Additional controlled airspace extending upward from 700 feet or more above the surface is needed to contain aircraft executing the RNAV (RNP) IAP RWY 08L and 26L to Honolulu International Airport. This action will provide adequate controlled airspace for aircraft executing the RNAV (RNP) IAP RWY 08L and 26L to Honolulu International Airport, Honolulu, HI.

Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments to the proposal were received. Class E airspace designations for airspace extending from 700 feet or more above the surface of the earth are published in paragraph 6005 of FAA Order 7400.9P, dated September 1, 2006, and effective September 15, 2006, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

This amendment to 14 CFR part 71 modifies the Class E airspace area at Honolulu International Airport, HI. The establishment of a RNAV (RNP) IAP RWY 08L and 26L to Honolulu International Airport has made this action necessary. The effect of this action will provide adequate airspace executing the RNAV (RNP) IAP RWY 08L and 26L to Honolulu International Airport, Honolulu, HI.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation—(1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulation Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of a small entities under the criteria of the Regulatory Flexibility Act issued in Los Angeles, California, on October 5, 2006. [FR Doc. 06-8791 Filed 10-19-06; 8:45 am] [FR: Oct 20, 2006 (Vol. 71, No. 203)] 14 CFR Part 71

For further information contact: The Office of the Regional Western Terminal Operations, Federal Aviation Administration, at 15000 Aviation Boulevard, Lawndale, California 90261, telephone (310) 725-6502.

NOVEMBER 8, 2006

Noise Exposure Map Notice for Honolulu International Airport, Honolulu, HI

This notice announces that the FAA finds that the noise exposure maps submitted for Honolulu International Airport are in compliance with applicable requirements of Part 150, effective October 16, 2006. Under 49 U.S.C. section 47503 of the Aviation Safety and Noise Abatement Act (hereinafter referred to as "the Act"). The Act requires maps to be developed in consultation with interested and affected parties in the local community, government agencies, and persons using the airport. An airport operator who has submitted noise exposure maps that are found by FAA to be in compliance with the requirements of Federal Aviation Regulations (FAR) Part 150, promulgated pursuant to the Act, may submit a noise compatibility program for FAA approval which sets forth the measures the operator has taken or proposes to take to reduce existing non-compatible uses and prevent the introduction of additional non-compatible uses.

The FAA has completed its review of the noise exposure maps and accompanying documentation submitted by the State of Hawai'i, DOT Airports Division. The documentation that constitutes the "Noise Exposure Maps" as defined in section 150.7 of Part 150 includes: Figure 4-1 "2003 (Existing) Base Year Noise Exposure Map," and Figure 5-1 "2008 (Forecast) Five-Year Noise Exposure Map—No Mitigation Scenario." The Noise Exposure Maps contain current and forecast information including the depiction of the airport and its boundaries, the runway configurations, land uses such as residential, open space, commercial/office, community facilities, libraries, churches, open space, infrastructure, vacant and warehouse and those areas within the Yearly Day-Night Average Sound Levels (DNL) 55, 60, 65, 70 and 75 noise contours. The FAA has determined that these noise exposure maps and accompanying documentation are in compliance with applicable requirements.

FAA's determination on an airport operator's noise exposure maps is limited to a finding that the maps were developed in accordance with the procedures contained in Appendix A of FAR part 150. If questions arise concerning the precise relationship of specific properties to noise exposure contours depicted on a noise ex-

posure map submitted under section 47503 of the Act, it should be noted that the FAA is not involved in any way in determining the relative locations of specific properties with regard to the depicted noise contours, or in interpreting the noise exposure maps to resolve questions concerning, for example, which properties should be covered by the provisions of section 47506 of the Act. Therefore, the responsibility for the detailed overlaying of noise exposure contours onto the map depicting properties on the surface rests exclusively with the airport operator that submitted those maps, or with those public agencies and planning agencies with which consultation is required under section 47503 of the Act. The FAA has relied on the certification by the airport operator, under section 150.21 of FAR part 150, that the statutorily required consultation has been accomplished.

For further information contact: Steven Wong, Federal Aviation Administration, Honolulu Airports District Office, Box 50244, Honolulu, HI 96850, Telephone: (808) 541-1225. Copies of the full noise exposure map documentation and of the FAA's evaluation of the maps are available for examination at the following locations: Federal Aviation Administration, Community and Environmental Needs Division, APP-600, 800 Independence Avenue, SW., Washington, DC 20591. Federal Aviation Administration, Western-Pacific Region, Airports Division, Room 3012, 15000 Aviation Boulevard, Hawthorne, California 90261. Federal Aviation Administration, Honolulu Airports District Office, 300 Ala Moana Blvd., Rm. 7-128, Honolulu, HI 96850. Stephen Takashima, Senior Planner, State of Hawai'i DOT Airports Division, 400 Rodgers Blvd., Suite 700 Honolulu, HI 96819-1880. [FR Doc. 06-8889 Filed 10-25-06; 8:45 am] [FR: Oct 26, 2006 (Vol. 71, No. 207)]

Endangered Species Notice

NOVEMBER 8, 2006

Endangered Species Notice

The following notice is published pursuant to Section 343(c), Hawai'i Revised Statutes which requires OEQC to inform the public of: (1) a public comment process or public hearing if a federal agency provides for the public comment process or public hearing to process a habitat conservation plan, safe harbor agreement, or incidental take license pursuant to the Federal Endangered Species Act; and (2) a proposed habitat conservation plan or proposed safe harbor agreement, and availability for inspection of the proposed agreement, plan and application to enter a planning process for the preparation and implementation of the habitat conservation plan for public review and comment; and (3) a proposed incidental take license as part of a habitat conservation plan or safe harbor agreement. For more information, please call the Department of Land and Natural Resources, Division of Forestry and Wildlife at 587-4171.

Programmatic Safe Harbor Agreement Covering Hawaiian Goose, Duck, Moorhen, Coot and Stilt for Participants of USDA Farm Bill Conservation Programs and Incidental Take Licenses

District: Island Wide
Applicant: Garden Island RC & D Council
O'ahu RC&D Council
Tri-Isle RC&D Council
Big Island RC&D Council
Proposing Agency: DLNR-Div of Forestry & Wildlife
1151 Punchbowl, Rm. 325, Honolulu, HI 96813
Contact: Bill Standley (587-4171)
Approving Agency: Dept. of Land & Natural Resources
Comment
Deadline: January 7, 2007

This Safe Harbor Agreement (SHA) was developed by the United State Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) for landowners who are enrolled in one of the various Farm Bill Conservation Programs. The NRCS will administer the Farm Bill portion of the SHA and Hawaii's four Resource Conservation & Development (RC&D) Councils will hold the incidental take licenses. Individual landowners ("Cooperators") will be enrolled through Cooperative Agreements with the RC&D Councils and covered under their licenses. The purpose of the SHA is to provide participating landowners certainty that future land use requirements will not be imposed if conservation efforts carried out under a Farm Bill program attract any of the five covered species to their enrolled properties or result in increased numbers of distributions of species already present. Cooperators will have an obligation to carryout their management responsibilities for a minimum of 10 years. At the end of their obligation, cooperators will be able to modify their enrolled properties back to the original baseline conditions. The baseline conditions for each property enrolled under the SHA will be determined by qualified NRCS personnel or their representatives. Monitoring and reporting will be completed by the Cooperator, NRCS and the RC& D Councils.

Public Hearings to be held at:

Location	Date	Time
Lana'i High School, Lana'i City	December 5, 2006	7:00 p.m.
Kalanimoku Bldg., Rm. 132, Honolulu	December 7, 2006	7:00 p.m.
